

Eco-Tech

Anti-spatter

Air- powered Aerosols & handspray applied fluids giving production efficiency with active environmental and health protection

Health protection

- Absolutely non-combustible
- Non-toxic classification
- No harmful gases generated on combustion
- Safe for the skin

Environmental protection

- Propellant: pure air
- No air pollution caused by ozone-damaging propellant
- Solvent-free:
- No indirect air pollution or contribution to the greenhouse effect caused by evaporating solvent
- No chlorinated carrier liquids
- Problem-free integration into existing recycling systems

Efficiency

- Highly effective protection from adhesion of welding spatter
- No undesirable porosity formation
- No nuisance of combustion residues
- Water-soluble - so washes off without problem
- Absolutely silicone free

Applications

- MIG Welding
- Manual Metal Arc Welding MMA
- Robotic Welding
- Suitable for all Ferrous and Non-Ferrous Alloys

- Highly Effective
- Compressed Air
- Non-Toxic
- Container Recycles
- Health Friendly
- Economical

Availability

Compressed Air Aerosols

300ml active contents
Can size 65 x 157mm
Propellant – compressed air
Pressure when full 9.0bar
Pressure when empty 3.5bar
Vegetable Oil Base
Water Washable

Bulk Fluids – For application using handsprayer

25 litre UN container
10 litre UN container

Tap for 10litre container	0700 014 017
Tap for 25litre container	0700 014 018
Hand spray bottle	0000 138 408

Quality accessories for the quality welder
ESAB offers a wide range of accessories. The complete range, along with product information, is available at our local web-sites, look at www.esab.com or contact your local ESAB dealer.

Unrivalled service and support

Our commitment and ability to deliver the expected service and support starts immediately after the order is confirmed. We endeavour to offer our customers an After Sales service, which is second to none. A strong and skilful service organisation is prepared to offer service and maintenance, calibration, validation and upgrading of equipment and software.

The service organisation will offer standardised solutions for the reconditioning or modification of existing products.

Spare and wear parts are manufactured according to ESAB's quality plan. Exchange Printed Circuit Board (PCB), exchange modules and components are available for all our products in order to reduce downtime to an absolute minimum. ESAB is continuously upgrading authorised service partners for local service support. Customers who have their own service and maintenance personnel will always be offered a service-training package as part of a total ESAB offering. However, product and process training for end-users will form an additional part of the ESAB offering. Always ask your ESAB sales representative or distributor for a complete ESAB solution.

*ESAB reserves the right to alter specifications without prior notice
ESAB is approved according to ISO 9001:2000*
