300mm Hacksaw Blades
24TPI (10pc)

Abracs Hacksaw Blades are manufactured with Bi-metal flexible spring steel for long life and excellent cutting performance. The blades are shatterproof & flexible with hardended teeth for maximum wear resistance and are suitable for cutting a wide range of materials.

Features & Benefits

- Suitable for use with most Hacksaws
- Suitable for use on Metal, Stainless Steel, Plastic, Wood, Aluminium
- Shatterproof

Product Specification

Product	300mm Hacksaw Blades - 24TPI (10pc)
Code	HB30024
Material Code	D6AM2
Blade Body Thickness	0.62mm
Working Length	300mm
TPI	24TPI
Heat Treatment (Yes/No)	Yes
Heat Treatment Technology	Vacuum Furnace Heat Treatment
Blade Finishing Technology	Black Paint
Teeth Technology	Milled Teeth
Barcode No.	5056269508219
Commodity Code	8202998000
