ABRACS
abrasives and accessories

50mm Multi-Tool Blade
Drywall

Abracs Drywall Multi-Tool Blade is designed for precision plunge cutting in plasterboard or chipboard. The blades width increases accuracy, and is designed to reduce vibration and jamming while the asymmetric shape increases precision & control on plunge cuts.

Features & Benefits

- Suitable for use on Plasterboard, Drywall, Chipboard & Plywood

Product Specification

Product	50mm Multi-Tool Blade - Drywall
Code	MTDW5001
Fitting Type	Universal
Cut Depth	50mm
Cut Type	Precision/Plunge Cut
Material	Bi-Metal
Barcode No.	5056269513947
Commodity Code	8202998000
